Profile Summary

- Third-year ICT student at ARA, currently working on the Mana Prostate Support project.
- The project focuses on raising awareness about prostate cancer and providing valuable information to those affected or interested.
- Passionate about healthcare, with experience in hands-on patient care.
- Transitioning to healthcare technology due to a job-related back injury, seeking ways to help people through technology.
- Exploring how technology can make a meaningful impact in healthcare.
- Actively seeking an internship that aligns with my interests, where I can apply my skills and learn from experienced professionals.
- Aiming to pursue a career in healthcare technology, contributing to innovations in patient care.

Key Skills / Achievements

Time management:

- Managed work as a Healthcare Assistant while completing academic projects.
- Make sure tasks finished on time or before deadline.
- Enhanced tech skills through YouTube and LinkedIn Learning.

Teamwork:

- Communicated patient significant information to any healthcare staffs related to patient care.
- Collaborating during projects/assignments, ensure my opinion is heard and other ideas are considered.

Communication:

- Used non-verbal methods to assist patients.
- Actively listened to patients to meet their needs.

Technology:

- Learned and applied the fundamental in SQL, Python, JavaScript, Java, C#, R, HTML, Tableau, Cloud computing (AWS) and spreadsheets.
- Skilled in VCare® for patient documentation and care management, and Vocera for team communication, improving overall care efficiency.

Interpersonal & Soft Skills:

- Built trust through attentive listening and clear communication.
- Used negotiation and de-escalation to manage challenging situations.
